Pills

Overview

Pills can be used as **filter tags** or as a means to **highlight specific states** (e.g. device states, alarms).

Note:
To see pills in actions, visit the **"Events" page.**

Reminder:
Alerts / device state colors are identical in light/dark mode. Please visit the **"Colors" page** for more info.

Construction

For usecases such as filter tags, pills may feature an additional icon that allows users to remove the tag.
